Welcome to KOIKE new Website!

Since its establishment in 1918, KOIKE has played an important role in the development of key industries, as an Acknowledged Leader in the manufacture of machine tools that use 'Gas Energy'. Over this period, we have pioneered the development of 'Plasma' and 'Laser' Cutting Machines and commercialized State of the Art automated systems using CNC controls those kept pace with the latest market needs. At the same time, we have also established a network to supply total systems, from gas, welding, cutting solutions and related equipment, to meet our customers' needs. We are happy to state that KOIKE celebrates its 100th Anniversary in 2018. In the next 100 years, our aim is to steadily progress for the global expansion in the world market.

In the "Cutting and Welding Equipment" sector, taking advantage of the superior technology as a leading manufacturer of Cutting Machines for many years, developed the wide range of the Thermal Cutting, Portable Cutting Machines varying from a Hand-Held Blowpipe Type to the CNC cutting machines those were manufactured and sold. In addition, we meet all the needs of the welding abundantly, those line up from the Cutting Tips and the Gas Regulator which are indispensable to the operation of the Cutting Machine, Welding or Welding related equipment surrounding the Welding, that becomes a process after the cut, until the associated software, etc.
